

Subject: Stated Preference Methods, State-of-the-art Modelling,
May 3 - 7, 2010, Umeå, Sweden

The Centre for Environmental and Resource Economics (CERE) is offering, free of charge, an intensive week on stated preference methods, within a longer course on stated preference methods. The course mixes theory and practice, spending about 50% on each. The coding will be done in R (CVM) and LIMDEP (CE).

In conjunction with this course, Dr Wenchao Zhou will give an intensive course in R just before this course. This is also free of charge.

Course homepage: <http://www-sekon.slu.se/~bkr/homepage2010.htm>

Course dates: May 3 - 7, 2010 in Umeå.

Instructors: Dr. Bengt Kriström, CERE, Dr. Pierre Mahieu, CERE and Dr. Benedicte Rulleau, Université de Versailles-Saint-Quentin en Yvelines.

While the courses are free of charge, we regret that we cannot offer any travel grants.

To register, please email to Bengt Kristrom at Bengt.Kristrom@sekon.slu.se. Please be aware that the number of available spaces is limited; therefore sign up early to avoid disappointment.
